All natural, draws out soreness, toughens the hoof, helps dry cracked hooves, kills thrush & bacteria, alleviates laminitis.

"I originally developed this product to sell to other farriers. Like most farriers, I have always encountered the basic problems found in many horses—sore feet, thrush, feet that are either too soft or too hard and brittle, founder (laminitis), quarter cracks and white line disease. I started looking for a topical treatment and experimented with various ingredients; until I came up with what I now call Farriers' Fix Hoof Oil.

Farriers' Fix has ALL NATURAL INGREDIENTS and those who compete can be assured that it has tested negative under FEI guidelines. Farriers' Fix "works like Magic" in the words of my clients. Horses that were suffering from stone bruises or were trimmed too short, in many cases, were rideable the next day – the ultimate proof of a product that works.

ALL NATURAL INGREDIENTS

Venice Turpentine: an antiseptic that treats thrush and some of the bacteria that causes white line disease. It also toughens the hoof, making it more resilient to adverse footing conditions.

Cod Liver Oil: Helps to balance the moisture content and keep the hoof malleable. Cod liver oil is an excellent source of Vitamins A & D.

Wintergreen Oil: a catalyst that helps all the ingredients penetrate the hoof capsule is very effective in drawing out soreness. And as an added benefit, it makes Farriers' Fix smell nice!

Safflower Oil: Works with the Cod Liver Oil to balance the moisture content, and contains Vitamin E.
